

In the Music Festival, Lindsay Chien, Poon Mo Tong and Luk Chun Man entered for the solo verse speaking competition. Lindsay Chien got eighty three marks. Luk Chun Man got eighty two marks and Poon Mo Tong got eighty one marks. Some of the girls joined the Junior Choir.

Most of our classmates attend the Student Christian Fellowship meeting every Friday after school.

### **F O R M 1 B**

There are forty students in our class, twenty boys and twenty girls. Most of us come from Methodist Primary School. Mr. Check is our form-master.

All of us are very active. The boys like to play table-tennis and football. The girls like to play badminton. In the holidays we like to join together to go swimming and picnicking. We are very good singers too. Most of us are in the Junior Choir. In the Music Festival this year our classmates Yuen Wai Kee and Au Chack Sum came first and third. Besides, we have two artists, they are Lee Wing Lun and Tsang Che Keung. They always draw very beautiful pictures for us. Quite a number of us are Christians. They attend the meetings of the Student Christian Fellowship every Friday.

So we are just like a large family living together happily.

### **F O R M 1 C**

There are twenty three boys and eighteen girls in our class. Some of them are quiet and hard-working but some of them are naughty. They always get us into trouble. Our form-mistress is Miss Lai. She always changes our seats. There is a good boy who works very hard and always helps us out of difficulties. He is our monitor Cheung Kwing Yim.

There are many good painters and singers in our class. The best painter is Lai Kwong Fai. He can draw very beautiful pictures. Tsui Chou Wan is a very good singer, and many girls are in the Junior Choir.

Everyone of us is very fond of sports and games. Many can play table-tennis well, Lam Heung Wing is the best. He is also a good footballer. We play basket ball whenever we have time, and we won the basket ball match in the inter-form competition. We came second in football.

Some of our classmates are Christians and they attend the S.C.F. meeting every week.

On Union Night, we gave a play which was greatly applauded and we enjoyed ourselves.

Our Mid-sessional Examination results were not very satisfactory. Many of us failed. But we are working very hard. We hope to have better results in the Final Examination, so that we can all meet in Form II A next year.

Form One A

Form One B

Form One C

In the wall-magazine competition on Founders' Day, we tried our best, but failed to win the prize. On Union Night the boys sang a song for enjoyment. During the Hong Kong School Music Festival in March, our Girls Choir did very well. As for our six soloists, many were awarded Merit Certificates. We owed it greatly to our kind English teacher Mr. Hollingworth.

In school activities, many of us are Boy Scouts or Girl Guides, and some are members of the School's Football Team, and the Photography Club. Quite a number of us have joined the S.C.F. We are very fond of sports too, and had a good result on the Sports Day.

Finally, we must say that the success we are proud of are the fruits of our teachers who forgave us seventy times seven.

## FORM 2C

Our class consists of thirty eight students, twenty two boys and sixteen girls. Although we are famous for naughtiness and causing trouble, yet we are friendly with each other. But sometimes you can find unnecessary quarrels between us over small things.

In our class all of us are talkative, but we are not must good-for-nothing chatter-boxes: some of the girls have been chosen for the Junior Girls Choir and got quite good results in the Music Festival; while the boys are good in sports and made many new records on the Sports Day. On the Union Night we did very well in the play and were praised highly by many teachers.

We are glad to have Mr. Tsang as our form-master and Miss Gabriel as our English teacher. They always teach us to be good, for our examination results were not good at all, but we are trying our best to improve.

## FORM 1A

At the beginning of the school year, our class consisted of twenty boys and twenty girls. But Ng Yuk Chung went to Canada to further his study soon after November. All of us came from Methodist Primary School. Our form-mistress is Miss Lau. But we see our English teacher Miss Sito more often because we have several English lessons each day. The monitor of our class is Siu Hon Wah and the monitress Ma Wing Chee. Chan Hing Lun and Ma Wing Chee are our representatives to the Students' Union Council.

We had a picnic to Shing Mun Reservoir in December. On Founders' Day, we won the second prize in the Wall Magazine Competition.

On Sports Day, many of our classmates scored high marks for their houses. Some of the boys joined the Life Saving Club and Boy Scouts.

## FORM 3C

Our class consists of forty students, fourteen girls and twenty six boys. Mr. Yeh is our form-master.

As in the previous year, Wan Kin Cheung and Tsang Lan Yuk serve as monitor and monitress while Wong Kin Wah and Yip Yee Mei are representatives to the Students' Union Council.

We are really active students in school, many of us are Boy Scouts or Girl Guides and some are members of the Photography Club and Football team. Some of our boys have joined the Life Saving Club.

Though we are naughty sometimes, yet we still like to observe school regulations and rules of the teachers. Several of our classmates helped our teachers on the Sports Day though we did not win many prizes in the competition.

In short we enjoy our class which is full of fun, activity, understanding and co-operation.

## FORM 2A

There are forty students in our class, twenty boys and twenty girls. Our form-mistress is Mrs. Macdonald. She teaches us music and English. We spend many happy hours with her.

The boys in our school are more active than the girls, but in our class, boys and girls are just the same. Our class notice board is often covered with painted pictures and written work on different subjects.

In general girls work slower than boys, but they pay more attention in class and work harder at home. On the whole, our class is athletic and active. Many of us are members of the Student Christian Fellowship, choir members, members of the Football Team and Basketball Team, Table-Tennis and Photography Club. We have won a few competitions such as the Quiz, Choral verse speaking, football and basketball matches and we also came second in the Choral Verse Speaking in the Music Festival.

On Union Night the boys sang 'Soldiers Chorus' which did not sound like soldiers at all. They were 'good sports' anyhow.

We are sorry to hear that Lee Yee Lu will be leaving us soon for U.S.A. We wish her all the best in her new home and school life over there. What a lucky girl she is!

## FORM 2B

In our class there are some who have no response to the teacher during lesson, whereas there are some who laugh all the time and to a great extent.

Our class has a lot of activities co-operated in by the whole class and under the guidance of our form-master Mr. Ng. We have had Ko Lai Sang, Yeung Mo Ching as our monitress and Chan Tak Chee monitor.

Form Two A

Form Two B

Form Two C

Form Three A

Form Three B

Form Three C

## FORM 3A

We are very glad to have Miss Tsang as our form-mistress as well as our English and Civics teacher this year. Our monitor and monitress are Yau Kin Wo and Yip Kit Ying. Our representatives to the Students' Union are Lee Chee Woon and Mui Ching Wah.

One thing peculiar about our class is practically everyone has a nickname, in the case of some boys, more than one. Some of them are rather funny. As for the rest the less spoken the better.

This year we had a picnic at Silver Mine Bay which was very enjoyable indeed.

Many of our classmates participated in different events on the Sports Day and some of them carried away many prizes.

Our class, though considered passive by many teachers, is by no means inactive. A great number of our classmates are Boy Scouts, Girl Guides or members of the S.C.F., Photography Club, Badminton Club, Music Association, football and basketball team.

Our football team even won the championship of the interclass competition.

Our class representatives participated enthusiastically in the Music Festival and the Students' Union's General Knowledge Quiz. In spite of the fact that we did not win any prize, the experience gained is invaluable.

To conclude, this year has been a very interesting and enjoyable year for us all and we look forward to an even better one next year.

## FORM 3B

Ours is a joyous class, with Mr. C.T. Pun as the form-master. We started with 42 classmates, but with Cheung Wing Chuen left for the States, we have now 41. We are very co-operative, even in joking with teachers sometimes.

The girls in our class form a basket-ball team which is nearly unbeatable in the whole school, whereas some boys really deserve the title of 'Champion in chalk and duster throw'.

The Athletic Meet of the school is our day. Most of the winners of the important events in B Grade come from our class. Lee Siu Lim and Woo Kit Fong of our class are the individual champions in Boys B and Girls B respectively.

We are very active in various school activities. Many of us are members of the Student Christian Fellowship, Boy Scouts and Girls Guides. Lee Hin Wing and Lai Yiu Kwong of our class are in the C Grade School Badminton Team which were the Runners-up in the Inter-School Badminton Competition. We have also some good table-tennis players.

Being active and always making the loudest noise, this class is very well known in school.

## FORM 4B

In a classroom that seats 40, only ten are girls. It is but for this fact that one will be reminded that ours is a 'Science' class. Nevertheless, we are for 'Equal rights for both sexes', and so a happy atmosphere always prevails in the classroom of Form IV B.

We become friendly with one another very soon. We are helpful and most of us have a sense of duty towards our studies. But do not jump to the conclusion that we always bury ourselves in books. On the contrary, we take much interest in the situation of the world, in sports and games. On our notice-board press cutting are pinned everyday so as to give us an idea of what is happening around us. On the occasion of the Founders' Day, many of our classmates put up a good fight against the team of teachers in a basket-ball match. On Sports Day, many from our class excelled themselves, such as Chan Kam Kong, Chan Hon Leung, Yip Wai Bong, Hsing Bit Wu and Fung Po Chun, all of whom won many prizes. In the recent inter-class football competition we received the hard-won championship. Here, we should tender a vote of thanks to our form-mistress, Mrs. Kong, for her moral support by attending the match every time. On Union Night, we worked out a play entitled 'The Reverie of an Office Clerk' in collaboration with Form IV A and Form IV  $\alpha$ . Our hilarious play was well received with roars of laughter and we felt proud of our classmates Yip Wai Bong and Wong Cho Kuen, who played the leading roles.

In summing up, we firmly believe that our academic pursuit, coupled with many extra-curricular activities, makes our school life in Form IV B so much more colourful and enjoyable.

## FORM 4 $\alpha$

Form IV  $\alpha$  is a strange mixture in the sense that there are only four boys in a class of thirty six girls. It is true that the girls do overshadow the boys in some aspects. However, our class is a harmonious one and we get along smoothly together.

Our class is full of vitality and life. In the inter-class choral verse speaking competition, we got a prize for the overall performance. In the School Music Festival we came third in choral verse speaking, open class. We were indeed proud of our achievement. To reward us for our labour, our form-mistress and Mr. Hui treated us to ice-cream. Our Principal was kind enough to give all the participants of the Music Festival a tea-party in the school hall. We had much fun on that day.

We are talented performers and pianists. On the Union Night, we put up a play which received wild applause from the audience. Three of our girls play the piano for the morning assembly of the senior forms.

Active as we are, we are not without faults. Being a class of girls we are quite talkative. 'To err is human'. We hope that teachers will sometimes close one eye to our mischief. We hope, however, that we can improve our behaviour in the near future.

Form Four A

Form Four B

Form Four Alpha

Form Five A

Form Five B

Form Five Alpha

We experienced difficulty in studying English Literature at first for it was a new subject to us. But under the guidance of Mrs. Simms, we have improved a great deal now. Biology is our main science subject. Some of us also study Domestic Science and Mathematics.

Our School Certificate Examination is ahead. We are all hoping to reap a victory. Some of us plan to further our study after the fifth form while some are preparing to work in society. Here let us wish everyone success. At the same time let us thank our teachers who have tried their utmost to help us.

## FORM 4A

As everyone of us has to take nine subjects this year, we are occupied most of the time by school-work. Nevertheless we take a zealous part in all the school activities.

A class library was set up in the beginning of the term to promote interest in reading.

The class performance of a play on Union Night was a success in that it established a closer tie among the classmates.

At the annual Athletic Meet, Lai Pui Kwong came first in the 800 metres race, Ling Ching Mui also came first in the game of spoon and eggs. Choi Yuk Ming and Ho Po Yee were the runners-up of the three-legged race.

The class won the second prize in the Senior General Knowledge Quiz.

Four of our classmates took part in the Solo verse-speaking Competition of the School Music Festival. Fortunately, all of them (Chan Siu Lun, Ma Sau Man, Koo Ying and Cheung Wai Har) were awarded merit certificates.

A number of our girls were members of the Senior Girls' Choir which sang in the Christmas service as well as on Founders' Day. Several boys were members of the Photography Club, Life Saving Club, Astronomy Club and the Duke of Edinburgh Award Scheme and had been awarded first-aid certificates. Several members in the class take an active part in the Student Christian Fellowship.

In November, we had a picnic to Tai Po and had a grand time looking for different specimens of leaves. A tea-party was held in the Christmas holidays.

For the promotion of the welfare of the class, we attribute it to our dutiful monitor and monitress, Chan Siu Lun and Cheung Wai Har as well as our class representatives Cheung Hon Him and Yu Lai Chun.

We are proud to say that we have participated in almost every activity even though we are in the School Certificate class. Through our great effort, innumerable successes have been achieved. We have done extremely well in various subjects throughout the term. One of our classmates, Christopher Chan came second in the Speech Competition held early this year. Another thing we are proud of is that on Founders' Day in the match with the teachers, our class won by a good 20 points! As for the football match with Form III, we had another victory though they are much bigger in size than we. Another success achieved is that we came second in the notice-board competition. But, however, we felt a little disappointed after the distribution of prizes, as we had expected something more than just a beautiful flag!

This year, Form V  $\alpha$  had delightedly joined our class in a football match against Form V B who were utterly defeated. They also enthusiastically joined us in a picnic and admitted that they had a most enjoyable time with us!

Some teachers have generously given us the name 'the cream of the college'. We therefore look forward to even greater successes in the School Certificate Examination so as to prove that we indeed deserve this name, 'the cream of the college'.

### FORM 5 B

Our class is a mixture of interesting characters. Some of us are good dancers and good singers; some are humorous performers and some energetic athletes. But owing to one reason or another, their talents have not yet been discovered. Once in a blue moon we won a prize or two in sports such as football matches. Though fewer in number, the girls tend to outshine the boys in extra-curricular activities. This can be proved by the fact that one girl in our class won the first prize in the Inter-school Oratorical Contest.

In our class Poon Yuen Fook is the monitor, Leung Siu Wa the monitress and Lau Hung Fai the class representative to the Students' Union. Our form-master is Mr. Y.H. Kwan. He is very kind to us and is always interested in our progress. He also encourages the extra-curricular activities of our class. Apart from the College Picnic we did not have other picnics this year because of the pressure of work. However, we balance our busy life by indulging ourselves in basketball or other activities which involve physical exercise to relieve the mental strain. All told, life is a bit hectic for us this year but it is never dull.

### FORM 5 $\alpha$

Forty seven girls constitute our class. We are glad to have Mrs. Simms as our form-mistress and at the same time teaching us English Literature and English. Winnie Kwok and Anne Choy are our monitresses. They have turned out to be very helpful and efficient.

Though we are all girls, we are by no means inferior to the boys in school activities. A lot of us attend the Student Christian Fellowship regularly. On Sports Day, many prizes were carried off by our classmates. Portia Lau even won the A grade Championship! As for the Wall Magazine, we were most unfortunately beaten by the other classes.

## LOWER SIX SCIENCE

The L.6.S. was a collection of old and new students, yet we were co-operative and were ready to help one another. Our form-master was Mr. Fong whose unceasing help proved invaluable. Throughout the year, we had an active part both in curricular and extra-curricular activities. Here we are to present you the outline of our activities in the year:

*Curricular* :— Everything was done in a hurry; tests and mock examinations were frequent. Some of us had to sit for external examinations.

*Extra-curricular* :— We were no bookworms, rather we were the most active class in the whole school. We took part in the following:

*Wall Magazine Competition* — the competition was held on Founders' Day. We were particularly praised for our style of decoration and the standard of quality.

*Sports* — we made a great effort on the annual Sports Day and as a result, we won many trophies and medals. The combined team with L.6A won the Championship in the inter-class basketball competition.

*Telescope-making* — we were pioneers in this. Under the guidance of Mr. Fong, we had completed four sets by the end of April and some more were under preparation. Each set was designed to have a magnification of 200.

*Student Christian Fellowship* — many of us were members.

*Photography Club* — many of us took part in the activities.

*Excursions* — Our potential biologists went for field excursions in the New Territories twice, bringing additional samples for our studies.

In retrospect, we find that we are more trained and better equipped for the future though sometimes still a little naive, naughty and timid.

## FORM 5A

Our class is characterised by the close co-operation among the classmates; the immediate response to teachers' questions and the contribution to the good name of the college. However, some exceptions are inevitable because no man is perfect!

Our class can be justly called a class of contrasts. Once you step into Room 301, you will be much amused. There are extremes in characters, appearances, attitudes etc. among the classmates. We have a strong and king-size monitor in contrast with our small and delicate monitress. We have scientists and artists; 'bookworms' and 'lazy-bones'; rough guys as well as gentlemen and ladies; old-fashioned and square-headed ones and those who are more than up-to-date. However, one fact is sure: we have no teddy boys! A most interesting fact about our class is that we have sissies and tom-boys.

The activities of our class are so numerous that it is quite impossible to give an exhaustive account of them.

## UPPER SIX ARTS

The Upper Six Arts class had 26 students at the beginning of the term. During the following academic months, 5 have left either to take up their university education abroad or a job.

Since this is a decisive and competitive year, all our classmates are working very hard aiming for good results in the Matriculation Examination. That explains why most of us are less enthusiastic in the extra-curricular activities sponsored either by the school or the Students' Union.

In spite of this, our class participated in the inter-form basketball match in October and the inter-class football match in February. Though we did not gain any merit in these matches, they helped to promote a better understanding between the new and the old students.

We are much benefited by the unceasing assiduity of the teachers who have tried their best to finish the syllabus of this academic year on our behalf. For this, we are most grateful.

## UPPER SIX SCIENCE

First of all, we thank our teachers for their guidance this year. After the 'moonlight year' twenty three of us enrolled in this class—5 girls and 18 boys. Among these fellows, 10 are termed 'biologists', 11 'mathematicians' and 2 'cultural amphibians'. Throughout this year, we are fascinated by the subjects we learned, charmed by the atmosphere we shared and threatened by the exam we faced. Of all the subjects, we enjoy 'Religion and Life' most because it provides a chance to prove that we are not blind followers—we air our opinions freely and show that we have revolutionary ideas in various aspects. Though we have not achieved much in the school activities, we are particularly grateful to those classmates for their enthusiasm in representing our class to participate in these activities. In the beginning of this year, we were active. We had a picnic at Nam San Wai, a 'Science Fair' and participated in the football match. But we became dormant near the end of this year, for most of us bury ourselves in our studies.

To end up, it should be mentioned that Tao Hei Woo left us for the United States to study pre-medical course in November.

## LOWER SIX ARTS

We are lucky to have Miss Chu as our form-mistress and geography teacher this year. She is very kind and under her guidance and encouragement we showed improvement in our studies and success in extra-curricular activities.

Although there is a majority of sixteen new students in our class, friendship and co-operation soon flourish between old and new students. In some respects, this co-operation leads us to certain successes in various games sponsored by the school and the Students' Union. Our class came first in the General Knowledge Quiz and the football competition. Lo Kwok Yin and Law Man Sang were awarded first and second prize in the Senior Table-Tennis Competition. All these do not mean we neglect our studies. In fact, some of our classmates supply articles for the school magazine and we had a field trip in March.

Finally, we wish to take this opportunity to thank Miss Wong and Mrs. Garrod who taught us geography and English when Miss Chu and Mrs. Simms were on leave early this year.
